## **IHRC lines of action**

**International Human Rights Commission Foundation - IHRC** is a neutral, transnational intergovernmental organization based in Switzerland. He is an experienced, highly specialized peace negotiator and humanitarian aid provider, managing the work of the international IHRC Group. Thus, it guarantees professionalism, reliability, quality, independence and transparency of all members of the IHRC Group and their activities.

Since its inception, IHRC has operated mainly in the international arena in zones of war and military operations, territorial and national conflicts, and humanitarian disasters.

On 3 continents, we closely cooperate with state authorities, creating conditions and securing platforms for official and unofficial work and arrangements aimed at resolving conflicts and restoring the application of HUMAN RIGHTS.

The IHRC Group works independently for everyone and everyone, regardless of skin color, religion, national or political affiliation, origin and wealth.

We work for the broadly understood HUMAN RIGHTS and all the resulting principles of local and international coexistence.
